

## **CISO of the Year: Terabyte Finalists**

*Information security executives from organizations with over 10,000 employees*

### **Franklin Donahoe, Chief Information Security Officer, Mylan**

Franklin Donahoe is the CISO at Mylan. A native of Houston, TX, Franklin began his career as a U.S. Marine. He holds a Bachelor of Arts degree from the University of Washington and two Master of Science degrees from Carnegie Mellon University. Franklin has significant experience in the physical and information security fields, including executive protection services, security policy and standards management, vulnerability assessment, cyber incident response, security engineering, security awareness and training and fraud management. Prior to Mylan, Franklin served as CISO for Costco Wholesale based out of Issaquah, Washington. Prior to Costco, Franklin held a range of information security and data governance related roles at T-Mobile USA. During his tenure, he led several initiatives to ensure the company's information assets and technologies were adequately protected.

Mylan is a global pharmaceutical company committed to setting new standards in healthcare. Working together around the world to provide 7 billion people access to high quality medicine, Mylan innovates to satisfy unmet needs; makes reliability and service excellence a habit; does what's right, not what's easy; and impacts the future through passionate global leadership. They offer a growing portfolio of more than 2,700 generic and branded pharmaceuticals, including antiretroviral therapies on which approximately 50% of people being treated for HIV/AIDS worldwide depend. Mylan one of the world's largest producers of active pharmaceutical ingredients, market their products in more than 165 countries and territories and their global R&D and manufacturing platform includes more than 50 facilities.
