Three ways to earn

		HRA	HSA
F	Frequency. 500 steps in seven minutes; six times a day, at least one hour apart.	\$1.50	\$1.00
I	Intensity. 3,000 steps in 30 minutes.	\$1.25	\$1.00
T	Tenacity. 10,000+ total daily steps.	\$1.25	\$1.00
		\$4/day \$1,460/year	\$3/day \$1,095/year

UnitedHealthcare Motion produces results:²

On average, participants take **8,000–10,000** steps daily.

65% of participants sustain engagement over 18 months.

68% of those eligible to participate in Motion registered for the program.

Here's how it works:

- 1 Eligible employees and covered spouses create an account on unitedhealthcaremotion.com and select an activity tracker from the website or use a Motion-compatible activity tracker they already own.
- 2 An “activation credit” can be applied to purchased devices or taken as a reward if they use their own device. Purchased devices are delivered to the employee’s home.
- 3 Participants set up their device, begin walking to meet daily FIT (Frequency, Intensity, Tenacity) goals and sync their device weekly.
- 4 Every day, participants can earn a \$3–\$4 incentive, deposited quarterly into their HRA or HSA. All they have to do is walk to earn up to \$1,095 or \$1,460 per year.

Help employees maintain their health while you manage health care costs.

Employees and covered spouses can have over \$1,000 per year deposited into their HSA or HRA. This may enable you to implement a higher deductible plan with employees reducing their out-of-pocket costs if they meet their daily FIT goals. Healthier employees may also mean lower absenteeism and higher productivity, along with improved employee morale.
